Height: 6 feet

Spread: 6 feet

Sunlight:

Hardiness Zone: 5

Group/Class: Hybrid Tea Rose

**Description:**

A lovely and elegant rose with a captivating spicy scent, held in generous clusters, breathtaking against a backdrop of deep green foliage; very disease resistant and vigorous

**Ornamental Features**

Strike It Rich Rose features showy fragrant fully double gold flowers with peach overtones and pink edges at the ends of the branches from late spring to late fall, which emerge from distinctive rose flower buds. The flowers are excellent for cutting. It has dark green deciduous foliage. The glossy oval compound leaves do not develop any appreciable fall color. The fruits are showy red hips displayed from early to late fall.

**Landscape Attributes**

Strike It Rich Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

buyallseasons.com

Strike It Rich Rose is recommended for the following landscape applications;

- Accent
- Mass Planting
- Hedges/Screening
- General Garden Use

**Planting & Growing**

Strike It Rich Rose will grow to be about 6 feet tall at maturity, with a spread of 6 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front, and is suitable for planting under power lines. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It may require supplemental watering during periods of drought or extended heat. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This particular variety is an interspecific hybrid.
